IRAN EXPO Exhibition

The "Iran Expo" exhibition, which serves as a crucial platform for connecting with international markets, is the largest and most significant business event in Iran, organized with the support of the Trade Promotion Organization of Iran.

So far, five editions of the exhibition have been held, and the sixth edition will be held from April 27 to May 1, 2024, at the Tehran Permanent International Fairgrounds. In this exhibition, with the wide participation of companies, businessmen, and businesswomen from all over the world, the opportunity to negotiate and establish business interactions with the biggest industrial brands of Iran is available.

As planned, in the sixth period of the exhibition, more than 800 large and industrial Iranian companies will display their products and achievements for five days. Also, emphasizing the approach of networking and facilitating business interactions with foreign countries, this exhibition is set to welcome over 3500 merchants, investors, and foreign businessmen and businesswomen from more than 120 countries.

- 2 specialized webinars in the field of introducing selected products of the health and medical industries

■ Publication of specialized market reports on some selected agricultural products of Iran

- Saffron
- Date
- Caviar
- Raisins
- Pistachio

■ Publication of specialized reports introducing the export potential of some Iranian health and medical products

- Medical Equipment
- Medicine
- Biotechnology
- Health tourism
- Traditional medicine and medicinal plants

B2B Center

The B2B center is focused on establishing effective communication between foreign visitors and Iranian companies. This center gathers information and business requirements from foreign visitors and adapts them to products related to Iranian companies.

Through this approach, the center makes the necessary planning for face-to-face and online meetings. According to the foreign visitors' work schedules, it is possible to introduce target companies from before the exhibition to the end of the exhibition.

- Receiving information regarding the business needs of foreign visitors
- Classification of information and their adaptation to Iranian companies
- Arranging meetings between the parties
- Allocating a special hall to hold meetings during the exhibition
- Assignment of a specialized translator
- Holding specialized industrial gatherings between visitors and Iranian companies
- Organizing specialized industrial tours to visit exhibition and booths
- Introduction of industrial and technological tours from Iranian centers during the exhibition
